

# Title X-Supported Health Centers Provide Critical Preventive Care

Visits to Title X-supported centers in 2010 helped clients **avoid** myriad negative health outcomes:

## Contraceptive Care

**1.2 M**

unintended pregnancies

**586,000**

unplanned births

**403,000**

abortions

**87,000**

preterm or low-birth-weight births

## STI Testing

**53,000**

chlamydia infections

**8,800**

gonorrhea infections

**250**

HIV infections

**590**

ectopic pregnancies

**1,160**

infertility cases

## Pap Testing & HPV Vaccination

**1,940**

cervical cancer cases

**1,110**

cervical cancer deaths

This investment in 2010 also resulted in net government savings of \$7 billion. **Every dollar spent on publicly funded family planning services saves \$7.09 in public expenditures.**
