

# Why invest in reproductive health services in Nigeria?

**1 in 4**  
pregnancies  
are unintended

More than  
**50%**  
of these end in  
abortion

**500,000**  
women need treatment for  
abortion complications

Fewer than **50%**  
get treatment in  
a medical facility

**To prevent unintended pregnancies,  
Nigerian women need:**

- » Counseling on family planning options
- » Access to a wide range of contraceptive methods

University  
of Ibadan
