

**Table 4. Percentage distribution of married pregnant women aged 15–49, by contraceptive use status at the time of pregnancy, according to residence, 1995–1996**

Method used	Total	Urban	Rural
None	75.5	74.5	77.3
Pill	9.0	7.3	12.0
Condom	3.7	4.5	2.2
Withdrawal	8.9	10.2	6.7
Other	2.9	3.5	1.9
Total	100.0	100.0	100.0

*Notes:* Includes all married women who became pregnant in the 12 months prior to the 1996 KAP survey. Totals may not add to 100 due to rounding. *Source:* see source note in Table 1.
