

**Table 5. Median (and range) of scores on management, attitude and knowledge scales, by postgraduate year of medical residents and whether they had been rotated through the high-risk prenatal clinic, according to specialty**

Scale, year of training and type	Internal medicine		Family practice		Wilcoxon rank sum test*	
	N	Median	N	Median	Z	p†
<b>POSTGRADUATE TRAINING</b>						
<b>Year 1</b>						
Management	36	7.0 (3–10)	8	5.5 (3–12)	-1.44	.1510
Attitude	35	22.0 (17–27)	8	24.0 (22–27)	-2.67	.0076
Knowledge	36	5.0 (0–13)	8	6.5 (3–14)	-1.18	.2393
<b>Year 2</b>						
Management	52	6.0 (1–13)	9	8.0 (3–11)	-1.50	.1338
Attitude	48	20.0 (13–28)	7	25.0 (22–28)	-2.89	.0038
Knowledge	52	4.0 (-4–13)	9	8.0 (2–12)	-2.08	.0379
<b>Year 3</b>						
Management	27	7.0 (2–11)	11	8.0 (2–12)	-1.32	.1863
Attitude	26	21.0 (14–27)	10	25.0 (22–28)	-3.58	.0003
Knowledge	27	7.5 (3–12)	11	9.0 (2–13)	-1.54	.1241
<b>CLINIC ROTATION</b>						
<b>Yes</b>						
Management	8	8.0 (6–13)	14	8.5 (2–12)	-0.48	.6290
Attitude	8	24.0 (19–27)	11	25.0 (22–28)	-0.59	.5582
Knowledge	8	8.0 (4–12)	14	9.5 (2–14)	-0.86	.3916
<b>No</b>						
Management	107	6.0 (1–11)	14	6.0 (3–9)	-0.54	.5889
Attitude	101	21.0 (13–28)	14	25.0 (22–28)	-4.58	.0001
Knowledge	107	5.0 (-4–13)	14	7.5 (2–12)	-1.89	.0590

\*Z statistics calculated for this test were "corrected for ties" when the raw data gave the same value for two or more study participants. †Two-tailed test.
