*All state and federal sources, with the exception of Medicaid, may include one or more of the following services: sexually transmitted disease testing or treatment (such as for chlamydia or human immunodeficiency virus), infertility services, pregnancy testing, other medical services, outreach and education, or other nonmedical services. †With the exception of Nevada, funding source is the preventive health services block grant. ‡Includes sterilization, infertility services and pregnancy testing. §Includes administrative costs. **Includes sterilization. Notes: In this and subsequent tables, u=expenditures were made, but amount is unknown; a=expenditures may have been made; nr=no response to at least one of the surveys; na=funding source not applicable to that territory. Data for Medicaid and the MCH and social services block grants may include state matching funds and the state share of joint federal-state Medicaid expenditures. Data may not add to totals because of rounding.
