

TABLE 4. Adjusted odds ratios (and 95% confidence intervals) from logistic regression analysis assessing the association between selected characteristics and women's report of domestic violence in the past year

Variable	Odds ratio (N=1,056)
Registered marriage	1.35 (0.99–1.85)†
Dowry agreement	1.46 (1.08–1.98)*
Yrs. of education	
0 (ref)	1.00
1–5	0.78 (0.56–1.08)
>5	0.62 (0.40–0.97)*
Member of microcredit program	0.75 (0.56–1.00)*
Economic contribution to household	1.79 (1.26–2.54)**
Household socioeconomic status	0.81 (0.73–0.89)***
Current age	0.74 (0.68–0.81)***

*p≤.05, **p≤.01, ***p≤.001. †p<.10. Notes: Model is adjusted for whether age was inferred from other data. ref=reference group.
