

TABLE 3. Measures of postabortion care and abortion morbidity, by region

Measure	Total	Central	Eastern	Northern	Western
AVAILABILITY					
Facilities treating abortion complications					
Total no.	1,344	541	338	185	280
No. per 100,000 women 15–49	24	30	23	21	21
Beds in facilities treating abortion complications					
Total no.	34,178	12,056	6,997	7,514	7,611
No. per 100,000 women 15–49	622	674	475	857	561
ANNUAL ABORTION CASELOAD PER FACILITY					
All facilities that offer care	82	79	76	111	75
Type					
Hospital	358	440	375	259	328
Level IV health center	125	247	76	83	63
Level III health center	53	40	46	89	50
Private midwife	49	45	88	0	30
Ownership					
Government sector	85	99	69	104	81
Private sector	50	45	87	114*	34
NGO	139	159	108	132	128
ANNUAL ABORTION MORBIDITY					
No. of complications treated					
All abortions	109,926	42,929	25,544	20,512	20,941
Induced abortions	84,758	31,775	18,104	17,579	17,300
Rate of complications treated per 1,000 women 15–49					
All abortions	20	24	17	23	15
Induced abortions	15	18	12	20	13

*Based on one case. Note: Unless otherwise noted, data are for complications of spontaneous and induced abortions.
