

**TABLE 3. Unadjusted odds ratios from logistic regression analysis examining the likelihood that injectable users were late for reinjection, by selected characteristics**

Characteristic	Odds ratio	Characteristic	Odds ratio
<b>Area</b>		Last pregnancy was wanted	
Western Cape (ref)	1.00	Then (ref)	1.00
Eastern Cape	1.16	Later	1.06
<b>Type of injectable used prior to current clinic visit</b>		Never	0.80
NET-EN (ref)	1.00	<b>Client happy if pregnant in next 6 mos.</b>	
DMPA	1.16	No (ref)	1.00
		Yes	1.20
<b>Social and demographic</b>		<b>Service experience/quality of care</b>	
<b>Age</b>		Ever been late for scheduled reinjection	
15–19	0.93	No (ref)	1.00
20–29 (ref)	1.00	Yes	3.95**
30–39	0.97	Ever left clinic without method	
≥40	0.85	No (ref)	1.00
<b>Education</b>		Yes	1.85**
≤9th grade (ref)	1.00	Ever left clinic without injection	
≥10th grade	0.75	No (ref)	1.00
<b>Occupation</b>		Yes	2.07**
Unemployed (ref)	1.00	Ever told to return during menses (family planning visit)	
Employed	0.84	No (ref)	1.00
Student/scholar	0.93	Yes	1.09
Homemaker/government grant/pension/other	1.17	Ever told to return during menses (injection visit)	
<b>Housing</b>		No (ref)	1.00
House (ref)	1.00	Yes	1.09
Other	1.02	Ever counseled on potential side effects/ health problems of injectable	
<b>Relationship status</b>		Yes (ref)	1.00
Married (ref)	1.00	No	1.02
Single	1.25	Perceived timing of pregnancy risk after missing scheduled reinjection	
<b>Partner knows client is using this method</b>		≤2 wks (ref)	1.00
Yes (ref)	1.00	>2 wks/other‡	1.06
No	1.25	<b>Potential access barriers</b>	
<b>Partner approves client's injectable use</b>		Transportation to clinic	
Yes (ref)	1.00	Other (ref)	1.00
No	0.96	Walked	1.24
No opinion	1.68*	No. of minutes to clinic (mean)	0.99
<b>Last sex was &gt;30 days ago</b>		Missed school or work to visit clinic today	
No (ref)	1.00	No (ref)	1.00
Yes	1.33	Yes	1.03
<b>Pregnancy history/intentions</b>		<b>Client's last injection was</b>	
Ever pregnant		At this clinic (ref)	1.00
Yes (ref)	1.00	Not at this clinic	1.28†
No	0.72		
<b>Planning to have more children</b>			
No (ref)	1.00		
Yes	0.98		

\*p<.05. \*\*p<.01. †p<.10. ‡Other includes when injection wears off, depends how long using injectable, when period returns and do not know. Note: ref=reference group.
