

**TABLE 1. Percentage distribution of adolescents attending a municipal STD clinic and HMO adolescent clinic, by selected characteristics, according to sex**

| Characteristic                        | Females<br>(N=295) | Males<br>(N=141) |
|---------------------------------------|--------------------|------------------|
| <b>Race/ethnicity</b>                 |                    |                  |
| White                                 | 20.0               | 12.8             |
| Black                                 | 27.5               | 29.1             |
| Hispanic                              | 18.0               | 22.0             |
| Asian/Pacific Islander                | 17.6               | 15.6             |
| Mixed/other                           | 16.9               | 20.6             |
| <b>Site</b>                           |                    |                  |
| STD clinic                            | 41.7               | 48.9             |
| HMO clinic                            | 58.3               | 51.1             |
| <b>Partner type</b>                   |                    |                  |
| Main only                             | 62.4               | 44.7             |
| Main and casual                       | 30.5               | 32.6             |
| Casual only                           | 7.1                | 22.7             |
| <b>Method use with main partner</b>   |                    |                  |
| Condoms only                          | 35.8               | 49.5             |
| Hormonal contraceptives only          | 23.0               | 13.8             |
| Both                                  | 13.9               | 10.1             |
| None                                  | 27.4               | 26.6             |
| <b>Method use with casual partner</b> |                    |                  |
| Condoms only                          | 52.3               | 71.8             |
| Hormonal contraceptives only          | 5.4                | 1.3              |
| Both                                  | 23.4               | 9.0              |
| None                                  | 18.9               | 17.9             |
| Total                                 | 100.0              | 100.0            |
