FIGURE 1. Analytical framework for estimating the economic costs of serious complications from unsafe abortion

Unsafe abortions

- Serious complications
  - Complications treated in health facilities
    - Cost to health care system
      - Survivors—no disability
        - Cost of lost productivity during illness and recovery
      - Survivors with disability
        - Cost of long-term lost productivity
        - Intergenerational costs to children
      - Deaths
        - Cost of long-term lost productivity
        - Intergenerational costs to children
  - Complications not treated

- Minor or no complications
  - Survivors—no disability
    - Cost of lost productivity during illness and recovery
  - Survivors with disability
    - Cost of long-term lost productivity
    - Intergenerational costs to children
  - Deaths
    - Cost of long-term lost productivity
    - Intergenerational costs to children
