

TABLE 4. Number and percentage distribution of abortion providers and of abortions, by type of facility, according to caseload, 2005

Caseload	Total		Abortion clinics		Other clinics		Hospitals		Physicians' offices	
	No.	%	No.	%	No.	%	No.	%	No.	%
Providers	1,787	100	381	21	435	24	604	34	367	21
1-29	616	34	na	na	48	3	374	21	194	11
30-399	528	30	14	1	137	8	203	11	173	10
400-999	243	14	63	4	160	9	20	1	na	na
1,000-4,999	380	21	288	16	86	5	7	*	na	na
≥5,000	20	1	16	1	4	*	0	0	na	na
Abortions	1,204,504	100	827,245	69	301,329	25	56,041	5	21,589	2
1-29	6,163	1	na	na	632	*	3,340	*	2,191	0
30-399	71,083	6	3,842	*	23,407	2	24,136	2	19,398	2
400-999	163,128	14	45,272	4	106,482	9	11,374	1	na	na
1,000-4,999	818,084	68	666,562	55	136,331	11	17,191	1	na	na
≥5,000	146,046	12	111,569	9	34,477	3	0	0	na	na

*Less than 0.5%. Notes: Abortion clinics are those at which the majority of patient visits are for abortion services; other clinics are those at which the majority are for other services. Physicians' offices reporting 400 or more abortions a year are classified as clinics. na=not applicable. Abortion counts may not sum to totals, and percentages may not add to 100, because of rounding. Source: 2006-2007 Guttmacher Abortion Provider Survey.
