

**TABLE 4. Percentage of female sex workers who reported selected experiences, perceptions and preferences concerning health care, by location of sex work**

Measure	Hotel (N=354)	Street (N=323)
<b>No. of SRH services received in past six months</b>		
0	36	11
1	39	35
2	20	33
≥3	5	22
<b>Types of SRH services received in past six months*,†</b>		
STI testing/treatment	77	81
Maternal and child health care	32	53
Treatment for injuries from violence	16	31
Menstrual regulation	13	16
Family planning	8	9
<b>Locations where SRH services obtained*,†</b>		
Private facility/drug shop	63	29
Drop-in center	41	60
Public facility	12	24
Other NGO facility	9	37
No response	5	1
<b>Discloses sex work to providers‡</b>	5	14
<b>Change in quality of treatment expected if disclosed sex work</b>		
Better	12	18
Same	10	7
Worse	68	68
Don't know/no response	10	7
<b>Knows where to go for family planning services</b>	48	69
<b>Preferred locations for receiving future family planning services†</b>		
Drop-in center	45	51
Other NGO facility	17	25
Public facility	12	12
Private facility/drug shop	16	10
Other/no interest in family planning services	9	3
No response	16	11
<b>Preferred locations for receiving future general health services§</b>		
Drop-in center	38	45
Private provider	44	18

\*Among respondents who had received services (226 hotel-based and 288 street-based sex workers). †Multiple responses allowed. ‡Refers only to providers at facilities other than drop-in centers. §Only the two most common responses are listed. Notes: SRH=sexual and reproductive health. NGO=nongovernmental organization.
