

## Tables

TABLE 1. Number and percentage of U.S. women aged 15–44 who received any SRH service in the prior year, and the percentage receiving each specific service, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 25

TABLE 2. Number and percentage of U.S. women aged 15–44 who received any SRH service in the prior year by their characteristics and according to type of service received, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 26

TABLE 3. Number and percentage distribution of U.S. women aged 15–44 receiving any SRH service, or any of each type of contraceptive or other reproductive health services in the prior year according to their source of care, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 29

TABLE 4. Number and percentage distribution of U.S. women aged 15–44 receiving any contraceptive service in the prior year according to their source of care and clinic funding status, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 30

TABLE 5. Number and percentage distribution of U.S. women aged 15–44 receiving any contraceptive service in the prior year according to their source of care and clinic type, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 32

TABLE 6. Percentage distribution of U.S. women aged 15–44 receiving contraceptive or other SRH services in the prior year according to their characteristics, for all women and by their source of care, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 34

TABLE 7. Among U.S. women aged 15–44 receiving any SRH service, the number and percentage who received each type of service during the prior year according to their source of care, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 36

TABLE 8. Percentage distribution of U.S. women aged 15–44 according to the mix of contraceptive or other reproductive health services received during the prior year, for all women and by their source of care and clinic funding status, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 37

TABLE 9. Percentage distribution of U.S. women aged 15–44 according to the mix of contraceptive or other reproductive health services received during the prior year, for all women and by their source of care and clinic type, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 38

TABLE 10. Number and percentage of U.S. women aged 15–44 receiving contraceptive or other reproductive health services in the prior year who reported that the clinic was their usual source of medical care by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 39

### APPENDIX TABLES

Appendix Table 1. Number and percentage distribution of U.S. women aged 15–44 receiving specific contraceptive or other reproductive health services in the prior year according to their source of care, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 40

Appendix Table 2. Number and percentage distribution of U.S. women aged 15–44 receiving any SRH service in the prior year according to their source of care, clinic funding status and clinic type, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 42

Appendix Table 3. Number and percentage distribution of U.S. women aged 15–44 receiving a Pap test in the prior year according to their source of care, clinic funding status and clinic type, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 .....45

Appendix Table 4. Number and percentage distribution of U.S. women aged 15–44 receiving any STI service in the prior year according to their source of care, clinic funding status and clinic type, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 .....48

Appendix Table 5. Number and percentage distribution of U.S. women aged 15–25 receiving any STI service in the prior year according to their source of care, clinic funding status and clinic type, for all women and by their characteristics, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 ..... 51

Appendix Table 6. Number and percentage distribution of U.S. women receiving any contraceptive service in the prior year according to their characteristics, for all women and by their source of care, clinic funding status and clinic type, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 .....54

Appendix Table 7. Among U.S. women aged 15–44 receiving any SRH service, the number and percentage who received each type of service during the prior year according to their source of care, clinic funding status and clinic type, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019 .....58

TABLE 1

**Number and percentage of U.S. women aged 15–44 who received any SRH service in the prior year, and the percentage receiving each specific service, National Survey of Family Growth, 2006–2010, 2011–2015, 2015–2019**
